### SURPRISE DANCE IN HONOR OF THE ROULEAUS, IS GIVEN

A surprise dance was given by Mr. and Mrs. R. C. Barr and Messrs. J. A. Toombs and W. Poxon, in the Farmers' Exchange hall on Tuesday night in honor of Mr. and Mrs. E. J. Rouleau. Although late in arriving, a good sized crowd turned out for the occasion and all present expressed themselves as having a real enjoyable time. The music for the evening was generously donated by Mr. and Mrs. R. C. Barr and Mr. J. A. Toombs and together with W. Poxon, this quartette was responsible for the taking place of this event and great appreciation of their kindness is being sent forth at this time.

Mr. and Mrs. Rouleau were the recipients of many beautiful and useful gifts from the well-wishers of the town and district and they take this opportunity to thank everyone for their thoughtfulness and generosity.

### SENIOR SCHOOL REPORT

GRADE XI—J. Bishop 75, D. Nash 65, H. MacDonald 58, A. Ramsay 56, W. Edwards 46.

GRADE X—E. Braisher 75, C. Wright 66, R. Appleyard 64, G. Ramsay 61, J. Braden 60, M. Hodgson 60, S. Wright 44.

GRADE IX—N. McClure 80, L. Wallace 75, M. Ramsay 66, Y. Stenberg 64, M. Laing 63, I. Johnson 59, I. Nash 57, R. Ramsay 57, M. Fox 55, A. Kaiser 52, W. Poxon 50, D. Kincaid 48, C. Poxon 47.

GRADE VIII—E. English, M. Pimm, A. MacDonald, M. Malton, A. Birch, B. Charlebois, V. Atkinson, H. Edwards, B. Galech, M. Skerry, I. Mackey, J. Fairbairn, E. Wright, P. Johnson.

GRADE VII—L. Bramley, A. Charlebois, B. Fox, C. Gordon, I. Mortimer, A. Fox, E. Trumbley, G. Poile, F. Hemming, J. Raymond, L. Trepanier.

GRADE VI—B. Peters, M. Smalley, P. Greenan, C. Birch, N. Nash, M. Fruyk, A. Wise, G. English, S. Atkinson, M. Wiertz, P. Dodyk.

### CHESS CLUB NOTES

The Carbon Chess Club's second annual handicap will commence on Wednesday, Jan. 11th. There is a larger number of entries this year and the competition no doubt will be very keen.

The following players are competitors: Messrs. H. Birch, W. A. Braisher, D. Code, W. Dixon, J. H. Duytman, H. A. English, Roy English, V. Hawkins, R. Heath, T. Laing, H. Longstaff, C. McPherson, J. D. Paynter and R. H. Purdy.

The favorite story is the one about the Scotchman who opened his pocketbook in January and a June bug flew out.

Business Man: I don't know what the modern youngsters are coming to. My office boys persistently whistle while they work.

Second Ditto: You're fortunate. Mine just whistle.

Waiter: And how did you find the beef, sir?

Diner: Oh, moved a potato and there it was.

### LITTLE ITEMS OF LOCAL INTEREST

FOR SALE— $\frac{1}{2}$  section, 260 acres broken, 60 acres of good pasture, fairly good buildings and a good well, soft water. 8 miles east of Beiseker and 6 miles from Bircham. Further particulars may be had by applying to Fred Schell, box 59, Carbon, Alta.

A rink composed of L. Poxon, skip; W. Leitch, third; A. F. McKibbin, second and G. Tutt, lead, left Tuesday night for Drumheller to take in the annual bonspiel of that town. The first games were to be played on Wednesday, but at the time of going to press no word has been received of the play.

Mr. and Mrs. P. Edwards went into Calgary on Tuesday and expect to return Friday.

Donald Prowse was quarantined for Scarlet Fever on Tuesday.

Owing to an outbreak of Scarlet Fever Mrs. Bruels' room in the public school was closed and fumigated on Tuesday.

Miss Leita Gordon had the misfortune to fall last Sunday and as a result has been confined to her home ever since.

Mr. and Mrs. C. Moorehouse returned last Thursday from a short honeymoon spent at High River, guests of the bride's brother, Rev. E. Williams.

An eight end was played in a curling game at Vulcan last week. That is something that is not likely to ever happen again, although not impossible. —Nanton News.

Don't forget to come and hear Capt. Daney speak in the Farmers' Exchange Hall at 8 p. m. tonight (Thursday).

A surprise kitchen shower was given at the home of Mr. and Mrs. S. F. Torrance last Friday night in honor of Mrs. E. J. Rouleau, and a number of women gathered together for the occasion, the bride being presented with many useful articles for the kitchen. The invited guests were: Mrs. McFarlane, Mrs. T. J. Ramsay, Mrs. C. Wright, Mrs. J. Ramsay, Mrs. A. Hay, Mrs. C. Hay, Mrs. Smith, Mrs. McLeod, Mrs. Elliott, Mrs. Fairbairn, Mrs. Torrance, the donor, and Misses B. Davis and B. Smith.

A good liar used to have trouble keeping in practice during the winter when there was no fishing or golf. Now he has a radio.

The late John Oliver, who came from England and commenced his Canadian career as a farm worker and later rose to be premier of British Columbia, left an estate valued at \$75,913.

The idea that the Scot will not spend money was dispelled this month so far as travel is concerned by the thousands of clansmen who came a hundred miles or more by train or motor to attend the Highland Gathering at Banff, Alberta, held in September.

A shipment of antelope from Canada to the United States is shortly to be made. Charles Blazer, rancher, at Lake Newell, who has for years interested himself in the preservation of these animals, has contracted to deliver twenty-two head to a Texas banker.

### CARBON CURLING CLUB MEETS IN RINK, MONDAY

At a general meeting of the Carbon Curling Club, held in the waiting room of the rink, on Monday night, most of the members were present and two new rinks were formed. Instead of breaking up the rinks and commencing over again, the names of the new players and those rinks who were dissatisfied, were taken and classed for their position, and after the meeting elected three new skips, D. Code, Sandy Reid and Chas. Nash, each skip drew for choice and picked the man classed for that position. Now all the rinks are filled up and Carbon boasts a Club of twelve rinks. New schedules are being drawn up and in order that each rink may get two games a week, a double-header will be played once a week.

### BUYS THE DRUMHELLER ELECTRIC LIGHT PLANT

It is officially announced that the International Utilities corporation has secured control of the Union Power Company's plant and system and intend to make it the center of distribution of electric power over a wide area. The Midwest Utilities which controls the Western Canada Gas Company, is a subsidiary of the International Utilities. This company is now extending a transmission line from Vegreville to towns in that vicinity, and owns four power plants in Saskatchewan.

### Here and There

In accordance with its new policy the Department of Health at Ottawa has appointed twenty physicians as inspectors of immigrants in European cities. They are to report for duty at once.

Manager D. McNair, of the Associated Growers, states that at the end of last week 100 cars of "Maes" (Macintosh Red apples) left the Okanagan Valley for New York and that 50 cars of Jonathans will move out to Sweden, South Africa, Great Britain and New Zealand.

The Canadian Pacific Railway is again offering a prize of \$100 to the Canadian showing the best spring wheat at the International Hay and Grain Show in Chicago, it was announced at the offices of the agricultural department of the company. The show will be held in November.

The grand total of Canadian trade for the twelve months ended August was \$2,331,000,000, as compared with \$2,314,000,000 for the year before. Import figures are up and exports down; the former being \$1,066,000,000, as compared with \$967,000,000 the year before and exports \$1,264,000,000, as against \$1,337,000,000.

A boom in muskrat farming is on the horizon in Western Canada. Following the acceptance by the Provincial Governments of the Prairie Provinces of the Dominion Government's offer to turn over swamp lands to them for leases to residents for purposes of muskrat farming there has been a deluge of applications. Alberta has had 200 of them and Saskatchewan over 500.

British Columbia is capable of producing all the bulbs, rose bushes, fruit trees, ornamental trees and seeds that the Canadian people can use, it is claimed by authorities here. Millions of dollars each year go out of Canada for nursery stock that could be raised in British Columbia and delivered to the buyers several weeks earlier than it could be imported from overseas.

Boys and girls resident in Manitoba, Saskatchewan and Alberta are now engaged in a series of hog-judging contests in which the Canadian Pacific Railway is offering a trophy to the winning teams of each province, in addition to which the six winners will be taken to Toronto, to the Royal Winter Fair (Nov 16th to 24th), as guests of the railway.

"Zeke—"Wall, how ye feeling, Zed?" Zed—"Oh, purty good." Zeke—"What? Purty good, after me walkin' four mile to see ye?"

**NYAL CREOPHOS**—A valuable remedy; will be found most effective in Chronic Bronchitis, lingering, deep-set, stubborn coughs. **PRICE—\$1.00 a bottle**

## Who Does Your Printing?

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how prone many are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay for them. Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.

## Canada In 1927

We are now well launched into the new year of 1928, and it is possible to examine the completed story of Canada's progress and development in the year now ended.

It is the universally expressed opinion that the year which witnessed the Dominion's diamond jubilee was one of the best years in Canada's history. It was a year unmarred by any great national disasters or epidemics; it was a year of fairly general prosperity; it was a year of national growth and of development along lines making for national unity and a better conception of Canada's future possibilities.

The Dominion is more highly regarded by our own people, and has attained to a higher place in the eyes of the whole world. The new status accorded the Dominions within the Empire has been productive of greater national pride and confidence which finds expression in a still greater determination to build stronger and better in the years to come. Not least among the factors adding to Canada's international position was the election of the Dominion to a seat on the Council of the League of Nations and the appointment of a Canadian Minister at Washington, and an American Minister at Ottawa.

Western Canada can justly claim credit for many of the things which have resulted in the improved position of the country as a whole. During the past five years it is conservatively estimated that the farmers of Western Canada have sold farm produce to a value of \$2,000,000,000 at country points, and with the return of prosperity to the West, there has been a vast improvement in business everywhere. In a New Year's message, Sir Henry Dwyer declared that the gain of the year must be largely credited to agriculture and the extension of Canadian mining, and pulp, and paper industries. Western people have long contended that a successful and prosperous agriculture meant prosperity for all. The past year has demonstrated this.

One of the most noteworthy developments of the year has been the rapid increase of wealth produced from the mineral resources of the Dominion. Practically every province has experienced important developments in this respect, and no country in the world is now attracting quite so much interest, or inviting larger investments in this field of human activity. It is everywhere apparent that Canada is entering upon a new era in mining, and one which gives promises of adding enormously to the wealth of its people and providing employment for many thousands of workmen, not alone in mining itself but in all the allied industries and businesses, including transportation, which active mining operations bring about.

The trade and commerce of Canada has continued at a high level, with the Dominion occupying a position in the front rank of nations, and with a per capita trade higher than any country except New Zealand.

In the world of finance, Canada has been blessed with cheaper money for productive purposes than any country, except the United States. Taxation has been reduced, revenues have expanded, and surpluses in Governmental administration have taken the place of former deficits. Canada's ability to pay off over \$50,000,000 of its national debt out of current income in 1927, is significant of the great change which has taken place in the last few years.

Western cities report a year of great building activity, a largely increased volume of bank clearings, growth in population, prompt payment of taxes, profitable operation of public utilities, and good business in almost every branch of commercial activity. Towns and rural municipalities present the same favorable report, an ever increasing number of the latter having liquidated their entire debenture indebtedness and otherwise decreased their liabilities and increased their assets.

Thus the old year closed with peace, contentment and prosperity prevailing throughout the Dominion, with a new confidence and courage manifesting itself throughout the Maritime Provinces, with activity general in the central eastern Provinces, and with optimism prevailing in the West, coupled with well organized efforts to steadily advance its agricultural interests and development and with entirely new opportunities on a large scale developing in the north. Canadians can and are facing the new year with pride and confidence.

### Underground Railway In Tokio

The first underground railway in the Far East opened Tokio to the public. Running one and one-half miles underground, it is constructed on the pattern of the New York subway system and is said to be proof against earthquakes. It connects the railway terminals at Ueno with the Asakusa pleasure quarters.

Glasgow is soon to have its first ice rink in 10 years.

### If You Need A Tonic Get The Best!

Guelph, Ont.—"There is nothing better as a building tonic than Dr. Pierce's Golden Medical Discovery. Several times when I was rundown, suffered from weak stomach, thin and impoverished blood, I took it and always obtained good results. It enriched my blood, relieved me of the weak stomach, built me up in health, and made me feel like a new person. I also found it splendid to take following neighborhood to give me strength. I always recommend Dr. Pierce's medicines to those whom I find ailing for I know them to be just as advertised."—Mrs. W. H. Skyring, 52 Nottingham St.

Write Dr. Pierce's Invalids Hotel in Buffalo, N. Y., for free advice.

W. H. U. 1715

### Time To Advocate Peace

After every great war there is a period of almost complete safety, when the nations are too crippled and too weary to fight again. During that period—and we are living in such a period now—every rational experiment in building up a new machinery of peace ought to be tried. If the experiments fail and new generations arise not averse from war, then it will clearly be necessary for the nation to defend itself on the old terms and in the old way.

### An Excellent Name

The founder of Medicine Hat is dead and a morning contemporary expresses the hope that he was not responsible for the name of the place. But is it not an excellent name for a town? The newspaper paragraphers of the world know the name of that town even if they forget the names of all others in the west. It is striking, unusual, different, and we hope Medicine Hat will always stick to its name—until its population passes the million mark.

No man or woman should hobble painfully about because of corns when so certain a relief is at hand as Holloway's Corn Remover.

Betty: You only met me an hour ago, and now you want to kiss me!  
Paul: Well, I'm sorry I wasted so much time!

### Find Long Missing Seal

Was Originally Attached To Charter Of William the Conqueror

A seal originally attached to the charter of William the Conqueror, which always was assumed to have been lost beyond hope of recovery, has been found at the Guildhall, London.

Among an old and miscellaneous collection of articles a red bag was discovered containing pieces of wax which when pieced together with the aid of British Museum experts proved to be the centre of the long missing seal.

## TO THE MOTHERS OF ALL PALE GIRLS

If Your Daughter Shows Signs Of Anaemia a Tonic Is Needed

Anaemia is simply a lack of blood. It is one of the most common and at the same time most dangerous troubles from which growing girls suffer. It is common because the blood so often becomes impoverished during development, when girls often overwork and overstudy. It is dangerous because of the stealthiness of its approach and because of its tendency to grow steadily worse. Every growing girl should occasionally take a tonic to ward off this insidious trouble. It is because of their powerful action in rebuilding the blood that Dr. Williams' Pink Pills have made a world-wide reputation. The case of Miss Claire Sullivan, Pincher Creek, Alta., amply proves the value of this medicine. Miss Sullivan says: "During my school days I suffered a great deal from thin and watery blood. I was continually weak and tired; my appetite was poor, my sleep unrefreshing and I was troubled with backaches. To make matters worse I was attacked with acute appendicitis and the operation left me in a very weakened state. My mother, learning of the value of Dr. Williams' Pink Pills, had me take them and after using them for some time I can say the result was simply wonderful, as they completely restored my health, and now when opportunity occurs I always recommend these pills to weak, pale girls suffering as I did."

You can get the pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Specialize On Quality

Switzerland Finds Ready Market For Cleverly Constructed Devices

Switzerland hasn't coal, copper or oil, and its iron deposits are not available. It has to go away from home for wool, cotton and foodstuffs, but it converts the raw material it buys into so many clever and ingeniously constructed devices that it never has any trouble to find ready markets. Swiss watches, embroideries, silk, carvings, music boxes, and milk chocolates are known the world over.

The Swiss have harnessed the rivers that tumble from their mountains and have cheaper electricity and make more use of it than can be boasted of their neighbors. Through all the troublous times resulting from the Great War, they kept their currency at par and sometimes at premium. Their standard of living is above the average and as good as any, and their school system is world renowned.

All of which seems to demonstrate that good sense and a peaceful disposition are worth more than wide territory and natural resources to a people.

### Britisher Won Out

Had Race With American For Complete Collection Of Famous Prints

As a result of the neck-and-neck race between an American and an Englishman, neither of whose names has so far been disclosed, a complete collection of famous prints, illustrating the street cries of London, is now on exhibition at the Ackerman Galleries here for the first time in over a century.

The Englishman won by a few hours and the collection, valued at \$25,000 (about \$125,000), will remain in that country. Even the British Museum contains only thirteen of these rare prints.

Sometimes the less a woman has to complain about the more she complains.

Sample Each Free by Mail. Address Canadian Depot: "Stonhouse, Ltd., Montreal." Price, Soap 25c, Ointment 25c and 50c, Talcum 25c. Cuticura Shaving Stick 25c.

## Have Overcome Handicap

St. Dunstan's Annual Report Shows Amazing Results Attained By Blinded Soldiers

Of all the various schemes that were set on foot following the close of the war to aid the wounded soldier, none perhaps attracted so much attention and sympathetic interest as that which is designed to help the blind soldier to overcome his great handicap. The reason for this interest lies in the fact that men and women are wont to consider blindness the greatest tragedy that can overtake any person in the prime of life. It is remarkable, therefore, to read of the work that has been done with blinded soldiers at St. Dunstan's, London. The twelfth annual report of this institution has just been issued. St. Dunstan's was founded by the late Sir Arthur Pearson, himself blind, to aid the soldier who has been deprived of his eyesight and is obliged to seek another vocation in acquiring another trade if his great affliction had deprived him of the skill or power to take up again his former occupation. Since its foundation 2,265 officers and men have come under the care of the organization. The pages of the report, which is entitled, "While Memory Lives," provides moving and stimulating reading concerning the manner in which these ex-service men have risen above the affliction. It seems almost incredible that men should have fought and overcome their tragic handicap in such amazing fashion.—Toronto Globe.

She: you never hear of women cashiers embezzling or running off with their employer's money.

He: Not often, but when it does happen they take the employer, too.

Wise is the man who is attentive to what is going on in his own house, but blind to what occurs in the house of his neighbor.

## Children Arrested For Murder

Nine Hundred Homeless Waifs In Russia Implicated In Slaying Of Italian Vice-Consul

Nine hundred homeless children have been arrested by police in Riga in connection with the murder of the aged Italian vice-consul, Kozzio, who was beaten to death with stones and robbed by children on a dimly lighted street, according to the Riga correspondent of the Daily Mail.

Kozzio's body was found December 27. He had been visiting a niece the night of the killing. At the time it was believed that bandits had killed and robbed him and children were not suspected. Even the gold filling in his teeth had been extracted by the robbers.

According to the Riga correspondent of the Daily Mail, whose report is not substantiated elsewhere, boys and girls between the ages of 12 and 16 attacked Kozzio with stones, crushed his skull and rifled his pockets of \$2,000. The police made the arrests after they had discovered Kozzio's watch. A number of adults also have been arrested.

**Excellent For Croupy Children.**—When a child is suffering with croup it is a good plan to use Dr. Thomas' Electric Oil. It reduces the inflammation and loosens the phlegm giving speedy relief to the little sufferer. It is equally reliable for sore throat and chest, earache, rheumatic pains, cuts, bruises and sprains. Dr. Thomas' Electric Oil is regarded by many thousands as an indispensable of the family medicine chest.

Today Canada's exports of newsprint paper rank second value among her principal exports, wheat being first place.

Minard's Liniment for sore throat.

Regular motor car postal service in Finnish Lapland has been made possible by the use of a continuous tread tractor drive in winter time.

## Demand

# ASPIRIN

The whole world knows Aspirin as an effective antidote for pain. But it's just as important to know that there is only one genuine Aspirin. The name Bayer is on every tablet, and on the box. If the name Bayer appears, it's genuine; and if it doesn't, it is not! Headaches are dispelled by Aspirin. So are colds, and the pain that goes with them; even neuralgia, neuritis, and rheumatism promptly relieved. Get Aspirin—at any drugstore—with proven directions.

**Physicians prescribe Aspirin;  
it does NOT affect the heart**

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to insure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trademark.

## West Indies Cruise of Recaptured Adventure

THE "MONTROYAL"

Four hundred years of strife with piracy and rioting are encompassed in the history of the islands of the Spanish Main. For all these bright islands are monuments of the days of conquest of explorers and pirates. The West Indies mirror the world in miniature or the way of the world, and one sees them today lying peaceful under tropical skies.

A modern voyage of re-discovery is no longer a matter of years or even months as is emphasized by the schedule of the proposed cruises to this region of romance by the Canadian Pacific liner Montroyal which sails from New York on January 26 and February 29, each returning in 29 days.

Judging by the popularity of these cruises, the West Indies are still as tempting as they were to Columbus, Ponce de Leon, Drake, Cortes, Hawkins and a hundred others. Although there remain today no pirates, no rich galleons to sack, few buried treasures to seek, there still remains the bracing air on

RUINS IN OLD PANAMA

CAPT. H. GIBBONS, R.N.R.

silver seas, the beauties of coral islands, and of tropical life and many evidences of a historic past. Even in the matter of buried treasure everyone would like to surprise the world as did Lieut. George Williams who found amid some old ruins of Panama last year, by means of a violet ray detecting instrument, a treasure worth \$50,000. This mass of gold and jewels was unearthed on the site of San Jose Church which was destroyed in 1671 by pirates under Sir Henry Morgan.

Every spot on the west Indies cruises offers living testimony of a connection with the Old World. There is Cuba, the beautiful Island,

once the pride of Spain; Jamaica, headquarters in the old days of famous pirates; Panama, the former highway of Spanish treasure trains and now a name of the world's greatest canal; Colombia, stronghold of Hispaniola; Curacao, a little bit of Holland in the Caribbean; Porto Rico, where Columbus rested and whence Ponce de Leon set forth to find the Fountain of Youth; Nassau, in the Bahamas, with its coral formations and gardens and Bermuda, the "Isle of the Blest". Such names as these recall exciting days of the past and furnish highlights in a voyage of recaptured adventure.

## WORLD HAPPENINGS BRIEFLY TOLD

President Paul von Hindenburg has accepted the post of patron to the International Aeronautic Exposition to be held at Berlin in 1928.

Five occupants of a hydro-aeroplane which was undergoing a test flight, were killed when the machine crashed from a height of 1,200 feet over Etang De Berre.

Blair Kent, a native of Ottawa, Ont., and for many years an official of the Canadian civil service, died suddenly in Los Angeles, following a heart attack. He was 72 years of age.

With a weight-lifting capacity of thirty passengers, probably the most powerful air liner in the world is being built in Scotland. It is an all-metal monoplane with a wing span of 110 feet.

The Strait of Gibraltar, which no man has ever been recorded as having swum, stands victor over two women typists from London. Both of them came within a few miles of the Spanish shore.

An order for four locomotives for the Edmonton, Dunvogan and B.C. Railway has been placed with the Canadian Locomotive company. Work on the order has been commenced and will give employment to 200 men.

The Edith Cavell Post of the British and Canadian War Veterans, in Pittsburgh, was presented with a Union Jack at a joint ceremony by the veterans, the Ladies' Auxiliary and the Lord Kitchener Post, of Homestead, Pa.

An Exchange Telegraph despatch from Athens says the Greek Government has recalled its minister from Turkey because of dissatisfaction with the manner in which Angora has carried out various agreements annexed to the Treaty of Lusanne.

The number of farms devoted to raising fur-bearing animals in Canada is increasing and figures issued by the Dominion Bureau of Statistics shows that for the year 1926 there were over four hundred more such establishments than in 1925.

Experts at the French Foreign Office began a study of a Franco-American peace pact which has been suggested by Secretary of State Kellogg. The experts were given special instructions by Foreign Minister Briand to report on the reservation in the Washington text.

Motorist: "It's not my fault! He was crossing in the middle of the street."

Policeman: "Don't tell me that. He's lying right here at the street intersection!"

Motorist: "Well, he was in the middle of the block when I hit him!"

## Acts Like a Flash In Relieving Colds

That's why so many people buy "Buckley's" to end Coughs, Bronchitis and all Throat, Chest and Lung troubles. It's instant, pleasant, guaranteed. You'll note its unique powers in the very first dose—and there are 10 doses in a 75-cent bottle! Ask your druggist for "Buckley's".

W. K. Buckley, Limited, 142 Mutual St., Toronto 2

**BUCKLEY'S MIXTURE**  
Acts like a flash—A single sip proves it

## Sorema Remedies Get Results

Shows its amazing results in Eczema, Dermatitis, etc. Sorema Cream, Sorema Alternative Tablets, powerful, effective, non-toxic skin treatments. Price 25c. For 10-day treatment, Sorema Lotion, Dept. A-11, Winnipeg.

**THE NEW FRENCH REMEDY, No. 1**  
**THERAPION**  
No. 1 for Bladder, No. 2 for Blood & Skin Diseases, No. 3 for Chronic Weakness. Sold by leading chemists, or by mail from Dr. Leclerc Med. Co., Montreal, Canada.

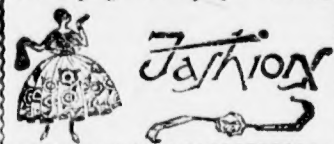

## Could Learn From Canada

British Newspaper Man Writes Of Class Distinction In England

Mr. Carey Lord, one of the British newspapermen's party, who toured Canada last summer, has recorded his impressions in a series of articles in the Advertiser and Times, of Clitheroe, Lancashire. In one article he says:

"There are few or no class distinctions in Canada. At St. John I heard one call another 'Tom' in a most familiar way, and Tom who laughingly answered was a member of Parliament, and the man who addressed him a menial in the hotel below the rank of waiter. At another city a gentleman on my right at dinner told me he could not live in England again because it still maintained its class distinctions. The gentleman on my left had only just told me my neighbor on the right was reputed to be worth twenty million dollars. I have the 'reputed' figure and he was yet a millionaire twice over in sterling and he had only to return to England and give an odd hundred thousand to a hospital and he could command a peerage—a passport to the highest society. This is an object lesson to Britain, where traditions die hard. If the imaginary somebodies in our country could forget their imaginary class superiority they would do more to check the present-day tendency toward Bolshevism than all the anti-Bolshevik agencies they have already set up or are ever likely to set up."

## Winnipeg Newspaper Union

A Distinguished Frock

The charming frock pictured here is a smart and extremely graceful style. The flared drapery is sewn at each side of the skirt and the long dart-fitted sleeves are shown with and without cuffs. No. 1690 is in sizes 34, 36, 38, 40 and 42 inches bust. View A, size 36, requires 2 yards 39-inch plain, and 2 1/4 yards figured material. View B, size 36, requires 2 yards 39-inch figured, and 2 1/4 yards dark material. Price, 20 cents the pattern.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

2008 11th AVE. REGINA SASK.

## Recipes For This Week

(By Betty Barclay)

## JUNKET PLUM PUDDING

- 1 pkg. vanilla junket.
- 1 pint milk.
- Speck each of nutmeg, cloves and cinnamon.
- 1/2 cup grape-nuts.
- 1/4 cup raisins.
- 1/4 cup chopped dates.

Put grape-nuts, raisins and dates in the bottom of the dessert glasses. Warm the milk to lukewarm—not hot. Remove from the stove, add spices and junket powder and stir for one minute to dissolve. Pour at once over the fruit and grape-nuts in the glasses. Let stand in a warm room until firm—about 20 minutes, then put in a cool place until serving time.

## HOLIDAY SALADS

**Oranges, Bananas and Marshmallows**  
Peel and slice oranges; cut slices into segments. Mix with bananas peeled and cut into dice and marshmallows cut into quarters. Put into serving dish and sprinkle with sugar.

## Oranges and Coconut

Peel and slice oranges; cut slices into segments. Put into serving dish and sprinkle with sugar and grated coconut.

**Drives Asthma Before It.** The smoke or vapor from Dr. J. D. Kellogg's Asthma Remedy gives asthma no chance to linger. It eradicates the cause. Our experience with the relieving remedy shows how actual and positive is the success it gives. It is the result of long study and experiment and was not submitted to the public until its makers knew it would do its work well.

A submarine magnet, for lifting masses of iron and steel plate from wreckage, has been designed in England.

One school child out of every five in the United States is underweight.

## LESSON No. 17

**Question: Why is emulsified cod-liver oil so efficient a food for young children?**

**Answer: Rickets or weak bones are evidences of lime-deficiency. Emulsified vitamin-rich cod-liver oil helps Nature supply this deficiency.**

Pure, pleasantly flavored, nothing quite surpasses

**SCOTT'S EMULSION**

## SUNDAY SCHOOL LESSON

JANUARY 15

## JESUS AND SINNERS

Golden Text: "I came not to call the righteous, but sinners."—Mark 2:17.  
Lesson: Mark 2:1-17.  
Devotional Reading: Psalm 32, 1, 2, 5-7, 10, 11.

## Explanations and Comments

I. An Instance Of Persevering Truth, verses 3, 4.—When Jesus returned to Capernaum and it became known that he was in the house, so great a crowd gathered that there was not room for more even about the door. Four men who had brought a palsied friend to Jesus, finding that they could not come near him, ascended with their burden to the roof. They made an opening through the roof and let the man down before the Great Physician.

If it was one of the better homes in Capernaum, there was a central courtyard in which the crowd gathered, and Jesus spoke to them from the gallery, or veranda, which extended around the wall of the house. In that case, it was the tiles of the roof over the veranda which were removed. If it was a poorer house, there was only one room, with an outside stairway leading to the roof, where in warm weather the family slept. The roof could be easily opened, or dug through, for it was almost flat, sloping only enough to let the rain run off, and was composed of mortar, tar, ashes, and sand rolled until hard. Sometimes the joists were covered with stone slabs, and if this was the case in Peter's home, the men had not only to dig through the earth but to pry up the slabs.

The bed was but a mattress, padded quilt, or blanket, and as the roof was low the four men could hold on to the corners and by stooping could let down the sick man without the aid of ropes (as are represented in most pictures of the event). Probably in bringing the man the bearers carried him and his "bed" upon a board, or stretcher.

The four men were persevering and they were inventive. Most men would have been discouraged by the crowd and satisfied that they had done all that could be done, would have carried the sick man home again. Could they be expected to do the impossible? "If you find that one door is blocked, try another; and if no ordinary way is open, make a new and extraordinary way. Tear up the roof, make a new departure. Love is inventive, and enthusiasm is persistent."—Samuel Chadwick.

## No Increase In Ontario Gasoline Tax

At the conclusion of a lengthy cabinet meeting held in Toronto recently, Hon. G. Howard Ferguson, Ontario premier, definitely announced that there is to be no increase in the gasoline tax during the year of 1928. The increase was bound to come, said Mr. Ferguson, but would not come during the coming year, because current road expenditures were not being met out of current revenue but out of the capital fund.

A theatre in London, England, will try a novel experiment by arranging for parking 5,000 automobiles of patrons.

It isn't what your grandfather was but what you are, that really counts.

For frostbite use Minard's Lintment.

## Has Already Netted Million

British Convict Ship On Exhibition In U.S. Still Draws Crowds

More than \$1,000,000 has been made from the old British convict ship Success, which was on exhibition in New York in 1921 and 1923, and since then has been on the American waterfront and rivers. Captain David Smith, owner of the vessel, said when he sailed for England in the White Star liner Cederic, that his property would probably keep drawing crowds until it rotted away. During the years it has been in the United States more than 20,000,000 people have paid to see it and the torture instruments it still carries. The decks where, for forty-seven years following its launch in 1790, convicts were punished, still carry the instruments now considered too terrible to use. The Success is in Toledo now.

Every careful and observant mother knows when her child suffers from worms. She also knows that if some remedy be not speedily applied much harm will result to the infant. An excellent preparation for this purpose is Miller's Worm Powders. They drive worms from the system and set up stimulating and soothing effects, so that the child's progress thereafter is painless and satisfying.

Man at the Cash Register—"Listen. I wouldn't cash a check for my own brother!"

Stranger—"Well, of course you know your family better than I do."

**Powerful Medicine.**—The healing properties in six essential oils are concentrated in every bottle of Dr. Thomas' Electric Oil, forming one of the most beneficial liniments ever offered to the use of man. Many can certify that they owe their health to it. Its wonderful power is not expressed by the small price at which it sells.

One great drawback to the popularity of the inevitable is its refusal to make concessions.

Be loving and you will never want for love.

## The "Flu"

LEFT HER WITH A VERY WEAK HEART

Mrs. Beulah Demone, Pleasant River, N.S., writes:—"Having suffered with the 'flu' a few years ago, I was left with a very weak heart."

"I was unable to go about, and could not do my housework."

"I would get dizzy spells and would have to go and lie down."

"I could not sleep at night as the least little noise would wake me up."

"I tried different kinds of medicine, but they seemed to do me no good."

"A friend recommended

I have used five boxes and am much better; do not get those dizzy spells, and can do my own work as well as ever."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## BRITAIN WOULD FURTHER PLAN TO OUTLAW WAR

London.—The British Foreign Office has intimated that it would give most favorable attention to any proposals for outlawing war. At the same time reports appearing in the London papers that the United States proposed treaty to that end has been forwarded to the British Government are without confirmation. Officials remarked that it would be difficult to comment on a treaty which has been so variously reported in the press.

The Nicaraguan situation receives much more space in the London evening papers than the proposed treaty.

"While the United States is inviting France to join in proposing to the world a treaty renouncing war as a national policy," says The Evening Standard, "she is involved in a campaign in Nicaragua."

The Standard explains this contrast between precept and practice has been brought about by General Sandoz, the rebel leader.

The Star heads the Nicaraguan situation: "An Unpopular War."

The Evening News devotes nearly a column to the Nicaraguan situation as against an inch paragraph to the proposed treaty.

Commenting editorially, The Westminster Gazette calls Secretary Kellogg's proposal to France for a multi-lateral treaty "a shrewd stroke." It is unable to see, however, how this would advance the cause of pacific settlement of international disputes.

## Mountain Climber Lost

Los Angeles Man Was Attempting To Scale Mount Whitney

Long Pine, Calif.—The wind swirled snows from the peak of Mount Whitney, highest in the country, smothered out the tracks of Robert A. Evans, of Los Angeles, mountain climber missing since he set out to scale the highest of the Sierras.

A pre-arranged plan of reporting his progress by means of signal flares failed.

Signals flashed from the warm slopes here at the Eastern foot of the mountain brought no reply.

He had planned to be on the summit to hail the New Year. He had four days' food supply.

## Would Stage Bull Fight

Spanish Matador Anxious To Show Britain What Sport Is Like

London.—Antonio Marquez, famous Spanish matador who is spending his honeymoon in London, wants to stage a "painless bull fight" here.

The Spanish matador, who hopes to demonstrate to the English public that bull fighting is not cruel, is negotiating with a famous amusement promoter to stage the fight in London in order to exhibit the matador's supreme speed, agility and daring to the sport-loving British.

## Miner Killed In Snowslide

Body Of Kootenay Man Covered By Tons Of Snow

Nelson.—Semen Wetterhaus, 45, pioneer mining man of the Kootenay district, was killed in a snowslide at the Mammoth mine, near Silverton.

The body probably will not be recovered before spring as tons of snow covers it.

Wetterhaus, who was foreman and part owner of the Mammoth mine, served in the World War with the 225th Kootenay Battalion.

## Premier Must Take Rest

Winnipeg.—Premier Bracken, of Manitoba, who suffered a slight attack of appendicitis a few days ago, has been ordered by his physicians to take a complete rest from his official duties. The premier's condition, the doctors state, had not shown the improvement they had expected.

## A Family Affair

Alliance, Neb.—After his four daughters had married four brothers, Charles W. Sisley, 70, was married here to Mrs. Sarah E. Colerick, 59, mother of the quartet of brothers.

W. N. U. 1715

## Curb Money Lenders

Cannot Solicit Customers In Britain Through the Mail

London.—The Money Lenders' Act, which became effective January 1, forbids money lenders from soliciting customers through the mail, but they are still permitted to advertise in newspapers. The end of 1927 witnessed a grand effort by the money lending fraternity to get circulars out through the mail before the new law came into force, and they were plaintive in their appeals to the recipients of the circulars to "keep for reference," with the suggestion to do so in view of "eventualities which may arise in your personal financial commitments."

Deprived of the use of the mail, many money lenders are now attempting to widen their publicity in the newspaper field. With a few striking exceptions, however, prominent newspapers all along have refused to insert such advertisements and they declare they will rigidly maintain this attitude.

## Flin Flon Development

Hudson Bay Mining and Smelting Company To Commence Operations

Winnipeg.—Preparations are actively under way for the commencement of real work on the projected development of the Flin Flon mine. Plans for the mill and smelter are being prepared and also for the town-site which will be situated on Ross Lake, about two miles away from the plant.

The Hudson Bay Mining and Smelting Company is the name chosen for the company which will operate the mine.

The company will, it is learned, in all probability operate under a Dominion charter, but there are several details yet to be settled. R. E. Phelan, general manager of the company, who has been in San Francisco for some time past, is expected to arrive in Winnipeg this month and will establish his headquarters here.

## Propose "No War" Treaty

Negotiations Between France and U.S. Is First Step

Washington.—France has been asked by the State Department to share with the United States a mission to unite all principal nations in "renouncing war as an instrument of national policy."

The proposals for joint leadership, springing from the suggestion of Foreign Minister Briand for a Franco-American treaty outlawing war, is put forward by Secretary Kellogg as offering opportunity for a "more signal contribution to world peace by joining in an effort to obtain the adherence of all the principal powers of the world" in a renunciation of war.

## Reimbursed His Clients

Ones Who Lost By His Advice Remembered In Lawyer's Will

San Francisco, Calif.—The legal profession found in the will of the late Gavin McNab, noted California lawyer, a precedent and a heritage. He left money to reimburse clients who lost by his advice.

The will, filed in the probate court here, disposes of an estate valued at between \$600,000 and \$800,000 earned in fees since McNab left his place as a hotel clerk and decided to study law.

Of this amount \$40,000 was returned to two clients who paid McNab for advice as to investments upon which they lost.

## Another Gold Shipment

Canada Has Sent A Further \$5,000,000 To United States

New York.—The gold movement from Canada back to New York, which amounted to \$5,500,000 in December owing to the discount on the Canadian dollar in the New York foreign exchange market, has been increased to \$10,500,000 with another shipment of \$5,000,000, consigned to the Canadian Bank of Commerce in New York.

The net loss of gold to the United States during 1927 is placed at \$151,000,000 by the Federal Reserve Bank of New York in its monthly review of credit and business conditions.

## CONSERVATIVE LEADER

Col. R. B. Bennett, Conservative Leader, photographed on his return to Canada from his recent visit to England.

## Canada Makes Own Program

Will Not Hurry Construction Of Two New Destroyers

Ottawa.—It was stated at the Department of National Defence that it is the intention to have the two new destroyers for Canada built successively and not both at the same time, allowing a certain period for receiving tenders.

The construction of the two boats will take about three years.

This statement was made in answer to some comments by the London paper, Truth, which, among other things, applied to the length of time to which construction of the vessels will take. By constructing the vessels one after the other the financial obligation will be spread over a period of three years.

"We make our own programme," was the comment at the department on the criticisms of the London paper, when read to one of the officials. It was pointed out that the London paper is in error in saying that the Patriot and Patrician are cruisers. They are destroyers and will be simply replaced by other destroyers of a more modern type.

## Rich Platinum Area Found

London.—The Colonial Office announces the discovery of a platinum-bearing area of about 40 square miles in Sierra Leone, British West Africa. The deposits are alluvial and are considered important.

## Children Rescued

Wilhelmshaven, Germany.—Seven children adrift on an ice floe, were rescued by a naval vessel after being lost four hours.

## Governor General Inspects Namesake

His Excellency Lord Willingdon, hearing that an internationally famous Clydesdale stallion "Lord Willingdon" was a feature of the stallions being shown recently at the Ottawa Winter Fair, took the opportunity of inspecting his namesake. His Excellency is shown in the above photograph standing at the left beside the champion. At the right is W. J. McCullum, of Brampton, Ontario, and Regina, Sask., who purchased the stallion in Scotland last year at a price exceeding \$10,000, and brought him to Canada in October.

This two-year-old stallion has made

## Bandits Make Haul

Armed Robbers Secure \$3,500 From Storekeeper At Beaubien

Weyburn.—Armed American bandits made a sortie on the hamlet of Beaubien, and, at the point of a gun, secured some \$3,500 from John Kenna, storekeeper. Kenna was called from his bed by two men who declared that they were in urgent need of medicine and he accompanied them to his store, where they produced revolvers, and compelled the man to open the safe which contained money belonging to the Saskatchewan Pulp, Elevator Company, the International Elevator Company, the Post Office department and Kenna himself. After raking every niche out of the strong box, the bandits bound Kenna hand and foot and gagged him before they made their getaway.

Beaubien is a new town on the Lake Alma branch of the C.P.R. and is remote from communication with police and other centres. The town is located between Lake Alma and Ratchliffe, fifty-five miles south of Weyburn, 38 miles southeast of Radville, fifty miles due west of Estevan, all distances as the crow flies. It is ten miles north of the international boundary and twenty-two miles north of Westby, Mont., a notorious hangout for yeggs and gunmen.

Beaubien is also 20 miles from Bromhead, Sask., a former detachment of the Saskatchewan Provincial Police that was ordered closed last spring, when the force was reduced.

## Women and the Senate

Stated That Matter Will Come Before Supreme Court Of Canada

Toronto.—According to word received here, Hon. N. W. Rowell, K.C., Toronto, at the request of the petitioners, had been appointed by the Department of Justice, at Ottawa, to argue before the Supreme Court of Canada the eligibility of women for appointment to the senate of the Dominion. The question hinges on whether a woman is a "person" within the meaning of the British North America Act.

Judge Emily Murphy, one of the petitioners, has left Toronto for her home in Edmonton. Her co-petitioners are Hon. Irene Parilly, member of the Alberta cabinet, and Miss Henrietta Edwards, of McLeod, Alta. Mrs. Nellie L. McClung, and Mrs. Louise McKinney, former members of the Alberta legislature.

## Sight Icebergs Below Equator

Montevideo, Uruguay.—Although it is summer below the equator, the German steamship, Atto, sighted three icebergs near the mouth of the Rio de La Plata, the ship reported by radio. Experts attribute the unreasonable cold weather in that region to the presence of these and other ice formations which have been sighted.

## MODIFICATIONS IN NEW LIQUOR BILL FOR MANITOBA

Winnipeg.—A number of modifications in the Manitoba Government's draft bill on liquor legislation were announced by Hon. W. J. Major, attorney-general. The proposed changes will eliminate certain objectionable clauses which raised a storm of criticism when the draft bill was announced.

Permission is to be given brewers to deliver beer direct to permit holders, but to ensure full compliance with the existing laws, authorized inspectors will be assigned to every brewery operating in the province who will supervise all orders received.

The government also has decided to waive the regulation which provides for the production of permits at the time an order is placed.

The bar against brewery encumbersed hotels is also to be removed. Modification of this clause of the bill will enable hotels in which brewers are financially interested to operate beer parlors.

The original draft of the bill prohibits establishment of beer parlors in such hotels. A proviso, however, is contained in the amendment clause which stipulates that brewers who have an interest in an hotel cannot dictate as to the firm from which the supply of beer or liquor is to be purchased.

Other modifications provide for reduction in the number of rooms in an hotel operated as a beer parlor. The number is reduced from 40 to 24. The gallonage tax on beer is to be fixed at 12½ cents a gallon. Licenses to veterans clubs also are to be increased and minor changes proposed in the law enforcement clauses.

The modified bill will be presented to the law amendments committee of the legislature at the next meeting.

## Pardon Was Impossible

Former Cossack Officer Must Suffer For His Crimes

Krasnoyarsk, Siberia.—Vasili Abalukoff, a former Cossack officer, was condemned to death after a trial in which many witnesses told of the defendant's terrible cruelties to which more than 400 deaths during the civil war of 1919 were attributed.

Eye witnesses described the burial alive of some persons and the hacking to pieces of others. They recounted how his victims were thrown under the ice and numerous deaths from whippings.

In pronouncing sentence, the court held that amnesty for the former officer was impossible.

## Exchange Political Prisoners

Ten Released To Poland Condemned To Death By Soviets

Warsaw, Soviet Russia and Poland exchanged 38 political prisoners held under various charges. Among those released by the Soviets were ten who had been sentenced to death.

Poland delivered nine persons, among them a noted spy named Hliniez. Soviets returned 29 prisoners, among them two priests and six women.

At the same time the two countries exchanged a protocol which guaranteed the return to Poland of two more priests held prisoners.

## Rescues Crew Of Air Mail Plane

London.—The captain of the British steamer, British Knight, has notified his London owners that he picked up the French mail airplane, N-R-54, of the Latecoere line, and rescued the crew, 38 miles east of Cape Decatur. The plane and crew will be landed at Gibraltar.

## Recover Bodies From Submarine

Provincetown, Mass.—The bodies of three members of the crew of the S-4 was recovered by divers who entered the sunken submarine. All of the bodies were found in the engine room of the submarine. They were fully clothed and appeared to have met death by drowning.

Three fifths of the automobiles in Porto Rico are in six cities having one-fifth of the population of the island.

# British Editor Sums Up His Impressions Following A Recent Visit To Canada

Sir James Owen, of Exeter, England, who paid a lengthy visit last summer to Canada and the United States, has been telling the story of his journey in the Exeter Times, of which he is editor. His final observations upon Canada, in summing up his impressions, are pointed and interesting. He writes:

"The Canadians are developing along their own lines. One hears sometimes that they are being Americanized. There are no obvious signs of that. The Canadian does not speak like an American, nor does he think as an American. His outlook on life is less flamboyant than that of his neighbors across the border. There is in the Canadian a sobriety, a restraint, such as one would expect of a people who derive so largely from Scottish ancestry.

"The recent celebration of the jubilee of Confederation has undoubtedly quickened the sense of Canadian solidarity. It has inspired all classes with renewed confidence. We people in England do not understand what a miracle Confederation was, and is. Physically Canada is sharply divided by national barriers. The Laurentian shield cuts off the eastern provinces from the prairie provinces, and, to the west, the Rocky Mountains cut off the Pacific seaboard from the western provinces. The natural lines of development for Canada are north and south, and there is inevitably much friction between Canada and the United States along those lines. Politically, however, Canada has been developed east and west, and the nexus has been the transcontinental railways. It may be doubted whether the railways would have overcome the pull of the south, if there had not been an intense national pride in Canada. I was struck that I should find the great cities of Canada essentially American. I found them essentially Canadian, looking ever north, and east, and west for their development and wealth, not south.

"Whether Canada will indefinitely remain a member of the British Empire is for the Canadians to say. I think the chances are that, having achieved their independence for all practical purposes, being linked to Great Britain and the Empire by bonds intangible and spiritual rather than material, the connection will persist, and may well become stronger with the passage of time, and the inevitable development of a common Empire policy. But, whatever the future may have in store for us all, I am persuaded that Canadians will not surrender their independence, their citizenship, to become a mere appendage to the United States.

"The Canadians are not altogether happy about the exploitation of their resources by the Americans. The two nations are neighbors, and have many and increasing affiliations, but Canada is jealous of her independence, and there is a sort of uneasy feeling amongst some thoughtful people that if it be true that trade follows the flag, the converse may be true, that the flag follows the dollars. There is no suggestion that America contemplates, or has even imagined, the conquest of Canada by arms. That is a proposition which would give even the most aggressive American pause. But where they have the whip-hand, United States finance and United States government which are much the same thing—are apt to be arbitrary, and uncomfortable neighbors, and if, and when, Wall Street has Canadian industry in its grip, demands may be made which will be resented by Canadian pride and self-respect.

"The next twenty-five or thirty years, then, must be critical for Canada in its relations with the United States, and in its relations towards the British Empire. If trouble can be avoided for that length of time, I believe it can be avoided altogether. Twenty years, thirty, forty years hence—years are nothing in the life of a nation—Canada will have become in reality what she is potentially today, one of the Great Powers of the world territorial, economic, industrial."

Japan is planning a national census in 1930.

W. N. U. 1715

## Canadian Hogs To New Zealand

Pure Bred Swine From Canadian Farms Go To Antipodes

A shipment of six bacon type pure bred swine from Canadian farms has recently been made to New Zealand. Three of the hogs were Canadian type Berkshires, which were owned by Duff Buen, Ridgetown, Ontario, and were prize winners at the 1927 Royal Winter Fair at Toronto. The other three were Tamworths, two sows and a boar purchased from Ontario and Quebec breeders. This is the first year in which hogs have been imported into New Zealand from North America since 1916. The need of new blood and the fact that Canada now holds a leading place in the production of bacon hogs following an extended period of concentrated effort in this direction, both on the part of the pure bred breeders and farmers in general, influenced the New Zealand Department of Agriculture to allow the importation of Canadian hogs for breeding purposes. This is the second shipment of Canadian hogs to New Zealand this year and another order is shortly to be filled. The selection of these hogs for shipment to New Zealand is being made by the Chief Animal Husbandman for the Canadian Department of Agriculture.

### The Time To Protest

It never did young people any harm to be lectured, and it probably does old people some good to lecture them. But when the reformers express opinion that there is something peculiarly wicked about the young of the present day, and that such immorality never existed before, then the time has come to register a protest.—London Graphic.

## DISCOVERY OF GREAT VALUE

Finding Of J. H. Craigie May Evolve Method Of Rust Control

Dr. H. M. Tory, chairman of the National Research Council, has informed the public that a discovery "of great scientific importance" had been made in the Dominion Rust Laboratory. The nature of this discovery he did not then reveal. Now a newspaper despatch from Winnipeg states that the Canadian section of the American Phytopathological Society at a recent meeting received information concerning a discovery that has been made by Mr. J. H. Craigie, a member of the staff of the Rust Laboratory. In a letter that was read to the assembled experts on diseases of plants, the result of Mr. Craigie's labors in the laboratory was described by the head of the Bureau of Plant Research at Kew Gardens, London, England, as the most striking mycelium discovery of the century. It is not asserted that Mr. Craigie has discovered a preventive of rust infection, but it is said that he has revealed facts concerning the behavior of rust spores that will be of immense value in the search for means to control the pest.

Intensive investigation of the rust problem was organized rather more than two years ago. Since then inquiries have been made into the nature of the parasite and its spores, sources of rust infection and the practicability of dusting crops with sulphur to prevent spread of the fungus. Experiments in cross-breeding of wheats to secure a rust-resisting variety have also been carried on. If a wheat that is immune from rust infection has been evolved and if Mr. Craigie has found the road to a method of coping directly with the parasite, a cause of heavy crop losses will be eliminated and the farmers and the country at large will benefit financially. Organized scientific research, too, will have rendered a notable service to agriculture.—Mail and Empire.

## Negotiating With Britain

Irish Free State Would Establish Aerial Service Between Two Countries

The Irish Free State is now setting up a civil aviation department with Col. C. Russell, former commandant of the National Army Air Forces, as director.

Negotiations have been in progress for some time between the Southern Government and the Imperial Airways of London, regarding possibilities of an aerial service between the Free States and Great Britain.

# Expresses The Belief That Reformed Calendar Will Go Into Effect In 1933

## B.C. Sheep Breeders' Winnings

Two Farmers Won 100 Prizes For Sheep Exhibited South Of The Line

Two farmers of Huntington, B.C., A. C. Stewart and B. C. Harrison, recently won over 100 prizes with 50 head of sheep entered in agricultural shows held in the States of Washington and Oregon. Among the 100 prizes was a grand championship for a pen of fat lambs, which has been won by British Columbia sheep breeders for three years in succession. Six other championship prizes were among the best awards.

In addition to the high scoring made by Messrs. Stewart and Harrison, 38 head of sheep entered at the agricultural show recently held at Salem, Oregon, by farmers at Sardis, B.C., won 45 prizes, including four championships and 18 first.

At the International Live Stock Exposition held annually at Chicago, Canadian sheep have for several years won most of the prizes.

## Forest Fires Made Trapping Very Poor

Indians Report Scarcity Of Fur In Northern Alberta

Summer forest fires have destroyed 40,000 acres of the country lying between Great Slave Lake and Lake Athabasca, and in consequence all Indian trappers reaching Fort Smith report very poor hunting, with great scarcity of fur.

Mice and rabbits, which form the staple food for the fur bearers, are cleaned right out, and the fur bearers have gone with them. However, fur is scarce even in country that did not suffer from forest fires.

Traders at Resolution, who usually require horse drawn sleds to take out the season's fur, have sent word that they will have only a few weasels this year, where usually some 20 to 40 large bales leave that point.

## Canada Is Honored

Dr. Henry Fairfield Osborne, of New York, was elected president of the American Association for the Advancement of Science. J. S. Plaskett, Dominion astrophysical observer, Victoria, B.C., was chosen vice-president of astronomy section, at a meeting held in Nashville, Tenn.

Every confidence is expressed by Moses Cotsworth, who has spent upwards of 40 years in the work of calendar reform, that the world is starting on its last half decade of use of the present calendar. Mr. Cotsworth believes a reformed calendar will go into effect in 1933 and that decision to do so will be agreed upon at an international conference to be called by the League of Nations, which may be held not later than the summer of 1929 if the reform is to be effected five years hence.

Briefly, the calendar which Mr. Cotsworth advocates, after years of study and consultation with authorities throughout the world, would provide a year of 13 months of 28 days each, every month starting on a Sunday and ending on a Saturday. Every date would fall on the same day every year. The extra day needed beyond the 13 months to fill the year would be dated December 29 and named "Year Day" and come between December 28 and January 1. In leap years a "leap day," a universal holiday, would be inserted at the end of June. The extra month would be known as "Sol" and come between June and July.

The calendar for 1933 is already in preparation at Greenwich, England, as it takes some six years to work out a calendar for any given year with the necessary working out of sun, moon, planet, star positions and other matters. Decision to change the calendar in 1933 must therefore be made in 1929 before this work has progressed too far. The year 1933 lends itself to the change because it commences on a Sunday and ends on a Sunday.

Mr. Cotsworth feels assured the reform is a certainty because he has endorsement of it from capital, labor and women's organizations. At present the League of Nations has requested each nation to appoint an advisory council to investigate the project.

## Spent All Prize Money

German Swimmer Has Little Left Of His Thirty Thousand

Ernest Vierkoetter, the Cologne baker, English Channel swimmer and winner of Lake Ontario's marathon at Toronto, has an ambition to become a maestro and swing the little baton of an orchestra leader.

"Kapellmeister," Vierkoetter replied without hesitation, when, recently in Paris, he was asked what he would do when he retired from active participation in swimming events. The lack of money was the only cause of his delay in realizing his ambition.

"Didn't you bring back \$30,000 from Toronto? That was the amount of the prize?"

"Do you know how much I brought back to Germany? Six thousand gold marks, \$1,500," replied Vierkoetter. "Too much expense, too much expense," he wailed.

## Canada's Fighting Planes

Canada's first fighting aeroplanes, two Siskin single seater scout machines, and the first of the fleet of eight Canada has ordered, built in Great Britain, have arrived in the Dominion, it is announced at headquarters of the Royal Canadian Air Force. The planes are now at Camp Borden.

People who have long faces are apt to have shortcomings.

"I sentence you to two days in the guard-room for imitating your superior officer and making an ass of yourself."—Journal Amusant, Paris.

View of Toboggan Slide at the Side of the Chateau Frontenac. (Inset) Jack Strathdee, Sports Director at the Chateau.

## Quebec Anticipates Big Sports Season

The outlook is for a record season of winter sports at Quebec, according to advance information from Jack Strathdee, newly-appointed sports director at the Chateau Frontenac, the winter sports centre of the Ancient Capital. The season will be in full swing about the end of December and will continue till March during which time thousands of tourists from all parts of the Continent will gather to take part in the various events. Quebec weather is consistent—not too cold and not subject to sudden thaws to put an end to winter activities.

In assuming the duties of Winter Sports Director, Mr. Strathdee brings with him a wealth of experience which will be of value in the work he is undertaking. For some years past he has been engaged in promoting

outdoor sports in vacation regions. More recently he has managed the French River Bungalow Camps of the Canadian Pacific Railway where he made a reputation in this work.

An extensive and interesting program has been arranged for the Chateau Frontenac by Mr. Strathdee including several entirely new features. Among these is a novel game of "Indian Golf" which is played along the lines of the Royal and Ancient game, except that skis and snowshoes are used and bows and arrows substituted for clubs and balls. What with winds and heavy drifts there will be no lack of hazards in the new game.

The Eastern International Dog Sled Derby, an international event, will be run from Quebec February 20, 21 and 22.

## When Pain Comes

What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sours. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention. One spoonful of this harmless,

tasteless alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go get a small bottle to try. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

## PAINTED FIRES

BY NELLIE L. McCLUNG

COPYRIGHT, CANADA, 1925

### CHAPTER XVI.—Continued.

"Go easy on the Finns, Captain," said Jack, laughing; "I am about to marry one."

Mr. Blackwood gave Helmi a long insolent stare, before which her eyes fell. Were all magistrates cross old men? Were they angry at her because she came from another country?

"You'll need to keep her in her place, young man; she has the eyes of a broncho. They are a high-tempered, murderous lot, the Finns, fighting, stabbing, shooting."

"We're in a hurry, Captain," said Jack, still unruffled; "so if you will get along with the business now we will be very glad. I have the license here."

The old man put on a pair of smeared glasses and began to hunt through the incredible turmoil on his table, looking for the necessary papers, swearing as he drew out each handful that failed to reveal the proper forms. Someone had been interfering; he never could leave anything and find it again; they had been here yesterday or the day before. If people would only leave his things alone! he would set a trap among his papers, and he hoped it would cut their damned fingers off.

Mr. Blackwood went to the cupboard, took out a teacup, poured himself a drink from a brown bottle, and made another attempt. After a second drink he found what he wanted.

Helmi hung to Jack's arm, terrified. "I don't like it," she said, "bad luck it will bring—it is so smutty—dirty and bad. He is drunken, come away—we will go to another one—I wish we could get married nice way."

## TO WOMEN OF MIDDLE AGE

Mrs. Wilson's Experience a Guide to Women Passing through the Change of Life

Hamilton, Ontario.—"I have taken several bottles of Lydia E. Pinkham's Vegetable Compound and I cannot speak too highly of it as I was at the Change of Life and was all run-down and had no appetite. I was very weak and sick, and the pains in my back were so bad I could hardly move. I got very sad at times and thought I had not a friend on earth. I did not care if I lived or died. I was very nervous, too, and did not go out very much. A friend advised me to try a bottle of Lydia E. Pinkham's Vegetable Compound, so I did. I am a farmer's wife, and always worked hard until lately, and was in bed for two months. I began to feel like a new woman after the first bottle and I recommend it with great success, also Lydia E. Pinkham's Liver Pills. I am willing to answer letters from women asking about your medicines, as I cannot speak too highly of them."—Mrs. EMMA WILSON, 471 Wilson Street, Hamilton, Ontario.

Sold by druggists everywhere. o

W. N. U. 1715

Jack tried to reassure her.

"Show me the license," the magistrate said, swinging around in his chair.

Jack unfolded it and put it in his hands.

The magistrate read the names aloud—John Ward Doran and Helmi Milander.

"Milander—Milander?" He looked up suddenly and regarded Helmi more closely.

Again her eyes fell.

Then he turned to Jack. "I would like to speak to you alone," he said, "if Miss Milander will step outside."

Helmi went out, glad to be out of the foul air and away from the scrutiny of the old man's eyes, which reminded her uncomfortably of the only other magistrate she had ever seen.

"Mr. Doran, I take it you are a Canadian?"

Jack nodded.

"And an educated man—a college man perhaps?"

"I put three years at Queen," Jack said.

"Now you propose to marry this Finnish girl?"

"I certainly do," said Jack.

"Now, Mr. Doran, I want to point out to you the folly of this course. The girl is pretty, I'll admit, of a certain type of barmal beauty."

Jack interrupted—"Now, look here, I am not asking for advice from you or anyone. I asked you to marry me to this girl—that's all. Will you do it?"

"Listen," said the magistrate, "and don't lose your temper. What I want to tell you is this. You don't need to marry this girl. These foreigners are not particular—this license will do her. They have great respect for a paper, and a man of your standing will soon tire of a girl who has nothing but a pretty face."

"So your advice to me, when I ask you to marry us, is for me to fool the girl, to make her think she is married to me. That is about the rottenest thing I ever heard of a man say!"

"Wait, now—don't shout!" The magistrate was determined to be patient. "I wish to God someone had given me this advice when I was your age. Was this girl the waitress where you had your meals? I thought so—same old story. She took a shine to you—following you about. I know—the same thing happened to me, and now I live here, where the beldame can't find me."

"Why does she want to find you?" asked Jack, without any attempt to disguise his contempt.

"You'll know more of these things before you are done, if you marry this girl. Now, I've tried to warn you in general terms, but you won't take it. This is final, is it?"

"Yes, sir, I am going to marry Helmi Milander honestly and legally. If you do not want to do it we can go to someone else."

"I'll marry you, all right, but before that I want to show you something. You have been very impertinent to me, but nevertheless I want to be fair to you anyway—and I am doing for you what I would want someone to do for my boy if I had one. Perhaps you would be interested to look at this."

Without any difficulty at all in find-

ing what he wanted, he went to the wall, where, on a huge spike, pages of newspapers were impaled. He searched through them for a moment and then returned to Jack and placed in his hand a page of a Winnipeg paper. Jack took it, wondering.

"Read this," said the older man, triumphantly, "and then tell me if you still want to go on. We keep a file of police happenings and find them very interesting."

Helmi's face looked at him from the page.

"Arrested in a Chinese den a year ago—escaped yesterday from the Girls' Friendly Home," Jack read the words aloud before he was able to grasp their meaning. He read every word of it, though the words seemed to be made of fire that burned him. Even the Magistrate was sorry for him.

"It's a damn lie!" broke from his lips; "it's a horrible mistake! See, it's the same name—that's all. If it were my Helmi wouldn't she have changed her name when she came here? She wouldn't be fool enough to go on under the same name."

Jack knew that Helmi did not talk of her life in Winnipeg, though it came out one day that she had been there a year; and the date of the escape recorded here corresponded with the time she came to Eagle Mines.

Jack's throat was dry and his soul sick within him, but to believe that of Helmi! He couldn't—he wouldn't. There were no dark chapters in the boy's own life. He had lived the clean, active life of a decent fun-loving youth. He knew of the evils in the world, having worked with gangs of men who spoke of their carousals without shame, but he had always been repelled by the coarseness, the vulgarity of it all. It couldn't be—Helmi was as sweet and pure as a prairie flower. If she was arrested it was some rotten mistake. No, he would not turn her down.

"Is it her picture, do you think?" asked the magistrate, coolly.

"I am not sure," said Jack. "It's a young girl of Nordic type, dressed as they all dress. I never saw my girl wear these clothes."

Jack read the words again, and then handed the paper back. He had taken his resolve. "Now, you've done your duty," he said, trying to speak calmly, "I am going to marry Helmi Milander, and if you ever show this paper to anyone and try to injure my wife, I will come back and deal with you—old man though you are. Now, get your book, or whatever you go by, and come outside; the atmosphere of this house is hardly right for a wedding."

Jack had never felt such a need for fresh air—another minute in this foul place would smother him.

Outside, with the afternoon sun shining on them, and a wind from the pass blowing the leaves of paper the magistrate held in his hand, they made their vows according to the bald rites of civil marriage. Jack could not afterwards remember what he said. He only knew he had a great desire to take Helmi in his arms and protect her from every evil thing in the world.

When they began the drive home the sun had gone behind the mountains. As the early chill of evening came down upon them Helmi was silent and distressed. She knew there was something wrong. The magistrate was her enemy like the other one. Why were they all so cross to her? She determined to ask Jack.

"Why did he not want to marry me?" she asked, when they had reached the top of the hill and stopped to look back at the little town, which would soon be blotted out by the purpling dusk.

(To Be Continued.)

Galileo dropped a half pound weight and a 100 pound cannon ball from the Leaning Tower of Pisa, and demonstrated to an incredulous world that the two would fall at the same speed.

## Ski-ers.

After strenuous hill climbing and jumping, a rub down with Minard's prevents stiffness.

## Will Keep Its Place

No Danger Of White Race Being Dominated By Other Races

Dr. A. Herdlicka, specialist in physical anthropology at National Museum in Washington, believes the white race should continue to hold its own with all other races.

"If some cataclysm of general epidemic should befall it," he said, "it would go the way of all races so afflicted and sink to a secondary position. But unless this should occur, the white race, despite the howls of those who predict that the rising tide of color will sweep all before it, will stand well to the fore."

The great advance of evolution in the future, Dr. Herdlicka asserted, will be in mentality.

## GIVE CONFIDENCE TO YOUNG MOTHERS

By Always Keeping Baby's Own Tablets In the Home

A simple and safe remedy for the common ills of babyhood and childhood should be kept in every home where there is either a baby or a young child. Often it is necessary to give the little one something to break up a cold, allay fever, correct sour stomach and banish the irritability that accompanies the cutting of teeth.

Experienced mothers always keep Baby's Own Tablets in the home as a safeguard against the troubles that seize their little ones so suddenly and the young mother can feel reasonably safe with a box of these Tablets at hand and ready for emergencies.

Baby's Own Tablets are a mild but thorough laxative that act without gripping and they are absolutely guaranteed free from opiates or other harmful drugs. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Novel Fire Alarms

Loud Speakers Have Been Installed In Streets Of Edinburgh

Novel loud speaker fire alarms have been installed in the streets of Edinburgh.

Any one wishing to report a fire breaks the glass and immediately the door opens disclosing two apertures. Above one is painted the words "Wait, Fireman will speak" and above the other, "Reply Here." The breaking of the glass also rings an alarm bell in a fire station duty room.

Although the fireman replies through an ordinary telephone transmitter his voice can be heard 12 feet from the alarm box. When the fireman answers the persons reporting the fire gives the exact location.

Police and ambulance calls also are sendable through the fire-boxes. One advantage of the new system, it is said, is that it reduces temptation to send in false alarms.

## Costly Binding For Books

London Firm Expending \$25,000 On Fifteen Volumes

A London bookbinding firm is expending \$25,000 in the design and construction of covers for 15 volumes of "The Lives and Times of the Popes," to the order of Thomas Madigan, of New York.

Rubies, sapphires, ivory, silk, scarlet leather, morocco and heavy gilding all go into the ornamentation of each volume.

A year's steady labor has produced only four volumes, of which only one has been forwarded to New York. The volumes include 30 of the original Papal bulls.

## A Worthless Souvenir

Sir Robert Horne tells a good story of an author who was attending the first performance of his new play. It was not a success. In fact, to put it plainly, it was a dismal failure—and it deserved to be.

At the end of the last act a lady seated immediately behind the unhappy playwright tapped him on the shoulder and, placing something in his hand, remarked:

"I recognized you when you came in and cut off a lock of your hair. You may have it back!"

New money in use in Palestine bears inscriptions in English, Arabic and Hebrew. There are no gold coins, the pound is a paper note, with only silver and copper coins.

Nearly every big man imagines that he is a born fighter until some insignificant little chap comes along and bluffs him.

## Treat Colds 2 Ways

With One Treatment RUBBED on throat and chest, Vicks

does two things at once:

(1) It is vaporized by the body heat and inhaled direct to the inflamed air passages, and (2) It stimulates the skin like an old-fashioned poultice and "draws out" the soreness.

## Little Helps For This Week

"He that is faithful in that which is least is faithful also in much." Luke xvi. 10.

Think naught a trifle, though it small appear; Small sands the mountains, moments make the year. And trifles life. —Young.

Every human being whom we approach should be the better for us. —William Ellery Channing.

Each of us is bound to make the small circle in which he lives better and happier; each of us is bound to see that out of that small circle the widest good may flow. —Arthur Penrhyn Stanley.

## Minard's Liniment for rheumatism.

Nothing but nude peanuts may be sold in Central Park by order of Park Commissioner Herrick, who is trying to keep the walks there clean. The reason? "Shucks," explained the Commissioner.

The cheapness of Mother Graves' Worm Exterminator puts it within reach of all, and it can be got at any druggist's.

Revenue Collector—"What's this \$400 item?"

Citizen—"That's the money I saved to pay my taxes with."

Revenue Collector—"Well, you'll have to pay taxes on that, too."

## The BABY

Why do so many, many babies of today escape all the little fretful spells and infantile ailments that used to worry mothers through the day, and keep them up half the night?

If you don't know the answer, you haven't discovered pure, harmless Castoria. It is sweet to the taste, and sweet in the little stomach. And its gentle influence seems felt all through the tiny system. Not even a distasteful dose of castor oil does so much good.

Fletcher's Castoria is purely vegetable, so you may give it freely, at first sign of colic; or constipation; or diarrhea. Or those many times when you just don't know what is the matter. For real sickness, call the doctor, always. At other times, a few drops of Fletcher's Castoria.

The doctor often tells you to do just that; and always says Fletcher's. Other preparations may be just as pure, just as free from dangerous drugs, but why experiment? Besides, the book on care and feeding of babies that comes with Fletcher's Castoria is worth its weight in gold!

Carbon who were not already sub-  
scribers, took the paper and paid  
their \$8. in advance, and they are  
now receiving the paper. But at  
the time of canvassing a represent-  
ative of the Chronicle interviewed  
the canvasser, and he explained  
that it would be probably two or  
three weeks before the copy for this  
page could be gathered together.  
It is now over two months and  
there has been no sign or hardly  
mention made of our town in the  
Columns of The Albertan. Is The  
Albertan going to pass us by? If  
so, they will lose a good many of  
their new subscribers, gained only  
on the assumption that this town  
would receive some publicity in sur-  
rounding districts, by taking that  
paper in place of others covering  
the same field. It is only right  
that The Albertan should make  
good their promise and Carbonites  
are patiently waiting for this page  
to appear. Will it be published?  
If so, when?
